

We are very pleased to announce that CGPA has been selected by Endeavour Volunteer Consulting to work with their organization on an exciting strategic planning initiative. As a national non profit organization committed to promoting awareness and education about the incredible value of group therapy approaches, CGPA has arrived at a pivotal point in our narrative where we must now make some critical decisions about our future. Much has changed in the 31 years since CGPA first began and it is time to reflect on our accomplishments and chart a clear course for the future. Our primary goal in this consulting process is to work collaboratively with our Endeavour Project Team on developing a strategic plan that will insure the long term sustainability of CGPA.

Our CGPA members may be called upon in various ways over the next 6 months to participate in this exciting process of renewal and we encourage you to participate if possible.

Like CGPA, Endeavour is a non profit organization. Their mandate is to strengthen the Canadian non profit sector by providing pro bono professional consulting services. We have been assigned a stellar team of consultants who have committed to working with us to revitalize our organization. We are very fortunate indeed to have been offered this opportunity and it is my fondest hope that as an organization we'll make the very best use of it and emerge at the end with a clearer vision of our future and renewed energy and commitment to put

toward that vision. The list below includes the names and positions of all members of our consulting team. For more detailed profiles and more information about Endeavour see their website at <http://www.endeavourvolunteer.ca>

With my best regards,

Terry Simonik R.N., M.Ed, CGPA President
